Office Location: 340-A MCKB
Office Phone: 801-422-5055
Email: Terisa_Gabrielsen@byu.edu

Course Information

Description
This course is designed to meet the needs of pre-service and inservice professionals from the many disciplines who serve individuals with autism spectrum disorder. Using a lifespan/lifecourse approach, autism issues are presented and explored through multiple media. Reading assignments, online lectures, online training modules, and visits to autism classrooms and treatment centers promote learning and exposure to autism outside of class. In-class experiences will include current scientific and educational research, video examples, and in vivo and video application of learning (assessment and intervention). History, controversies and future directions will also be addressed. The course is offered for 1-3 credits, which means there is a tiered assignment structure to match the hours of credit.

Prerequisites
This is a graduate level course. No specific previous course completion is required. Undergraduates and professionals already working in the field may register with permission from Dr. Gabrielsen.

Learning Outcomes

Knowledge
Students will demonstrate knowledge in Autism Spectrum Disorders.

Effective Writing
Students who take the course for 3 credits will write a 15-20 page literature review of a current topic in autism spectrum disorder.

Data Based Decision Making and Accountability
Students will demonstrate knowledge of evidence-based practice and make plans to promote evidence-based practice in school and other treatment settings.

Collaboration and Consultation
Consultation and Collaboration, Leadership and Collaboration, and Family-School Collaboration Services
Students will demonstrate skills in collaboration and consultation with families and other professionals regarding individuals with autism at various ages across the lifespan.

Academics and Instruction
Academic Interventions and Instructional support, Professional Education Practices, School-Wide Practices to Promote Learning
Students will demonstrate knowledge of a range of evidence-based interventions and instructional supports for individuals across the autism spectrum.
Intervention/Mental Health Services; Life Skills
Students will demonstrate awareness of the mental health care needs of individuals with autism across the lifespan. Students will also demonstrate planning for evidence-based methods of improving life skills for individuals across the autism spectrum.

Preventive and Responsive Services
Students will demonstrate knowledge of preventative services, including screening for autism and co-morbid conditions. Students will also demonstrate clinical skills in designing intervention plans for targeted skill goals.

Diversity in Development and Learning
Students will demonstrate cultural competency in approaching screening, assessment, and intervention case studies.

Students will demonstrate knowledge of systematic methods to remain current in instructional and behavioral interventions for students with autism spectrum disorder. Principles of progress monitoring, including program evaluation, will also be demonstrated in class.

Research and program evaluation, Current Issues in Special Ed.
Students will demonstrate application of legal rights and advocacy to case studies.

Grading Policy
Grades will be determined by participation in class activities, logs of learning activities outside of class, and (where required) written assignments.

This is a variable credit course. The following schedule shows expectations according to the number of hours of credit enrolled:

1 hour of credit:
(1) Attend classes, complete 1.5 hours of online lectures, online training modules, and reading for each of the 10 modules.

2 hours of credit:
(1) Attend classes, complete 1.5 hours of online lectures, online training modules, and reading for each of the 10 modules.
(2) Complete 10 hours of observations in autism treatment settings as listed in the syllabus. At least 2 of the 10 hours need to be completed at the ASSERT classroom in Nebo school district.

3 hours of credit:
(1) Attend classes, complete 1.5 hours of online lectures, online training modules, and reading for each of the 10 modules.
(2) Complete 10 hours of observations in autism treatment settings as listed in the syllabus. At least 2 of the 10 hours need to be completed at the ASSERT classroom in Nebo school district.
(3) Write a 15-20 page literature review on a current autism topic, approved by the instructor in advance.

Participation Policy
The nature of this course is to give you the most in-depth learning possible within a short period of instruction. To accomplish this goal, active participation in class and full participation in outside of class activities will be required. Because this is a flipped class, the discussions and activities in class will follow, not duplicate, the assignments outside of class. If participation outside of class is lacking, your experience in class will not produce the amount of learning designed for the session.

**Attendance Policy**

Attendance is expected in each class session. Notification of any necessary absences is also expected.

**Classroom Procedures**

This is a "flipped" course, which means lectures and other learning activities take place online. Our class time will be spent addressing questions from the outside assignments, discussing current issues in autism, sharing experiences from observations, and in video or live demonstrations of autism assessment, family and individual experiences, and treatment strategies.

**Teaching Philosophy**

This is a graduate level training course meant to give you skills to serve a targeted population. These skills have broader application, and it is hoped that you will find immediate application to generalize your new skills and knowledge. For this to happen, I intend to give you as much experience "in the driver's seat" as possible. This may be uncomfortable at first, but is the type of learning that is required for you to become proficient in your clinical and teaching skills.

**BCBA Competencies**

This course fulfills a minimum of 15 hours of Discretionary coursework for Board Certified Behavior Analyst. It may fulfill more, depending on the number of credits registered.

**NASP Domains**

**Domain 1: Data-Based Decision Making and Accountability**

*School psychologists have knowledge of varied models and methods of assessment and data collection for identifying strengths and needs, developing effective services and programs, and measuring progress and outcomes.*

- This course addresses data-based screening and assessment, as well as progress monitoring for decision making.

**Domain 2: Consultation and Collaboration**

*School psychologists have knowledge of varied models and strategies of consultation, collaboration, and communication applicable to individuals, families, groups, and systems and methods to promote effective implementation of services.*

Direct and Indirect Services for Children, Families, and Schools

Student-Level Services

- Talking with parents and consulting with teachers about autism symptoms and difficulties is a part of each of the lifespan stages discussed in the course.

**Domain 3: Interventions and Instructional Support to Develop Academic Skills**

*School psychologists have knowledge of biological, cultural, and social influences on academic skills; human learning, cognitive, and developmental processes; and evidence-based curricula and instructional strategies.*

- Academic interventions are addressed in the school age, adolescent, transition, and adult years modules.

**Domain 4: Interventions and Mental Health Services to Develop Social and Life Skills**

*School psychologists have knowledge of biological, cultural, developmental, and social influences on behavior and mental health, behavioral and emotional impacts on learning and life skills, and evidence-based strategies to promote social–emotional functioning and mental health.*

Systems-Level Services

- Social skills interventions are discussed in school age, adolescent, transition, and adult years modules.
Domain 5: School-Wide Practices to Promote Learning
School psychologists have knowledge of school and systems structure, organization, and theory; general and special education; technology resources; and evidence-based school practices that promote learning and mental health.

Domain 6: Preventive and Responsive Services
School psychologists have knowledge of principles and research related to resilience and risk factors in learning and mental health, services in schools and communities to support multitiered prevention, and evidence-based strategies for effective crisis response.

- Screening and interventions are discussed in class, covered in assignments, and are observed for student with 2-3 credits.

Domain 7: Family–School Collaboration Services
School psychologists have knowledge of principles and research related to family systems, strengths, needs, and culture; evidence-based strategies to support family influences on children’s learning and mental health; and strategies to develop collaboration between families and schools.

- Family consultation is covered in readings, observations, and class discussions across modules.

Domain 8: Diversity in Development and Learning
School psychologists have knowledge of individual differences, abilities, disabilities, and other diverse student characteristics; principles and research related to diversity factors for children, families, and schools, including factors related to culture, context, and individual and role difference; and evidence-based strategies to enhance services and address potential influences related to diversity.

- Individuals with autism are considered to be a neurodiverse population. Discussions and assignments, especially in the early years, discuss the barriers that may be encountered by diverse families.

Domain 9: Research and Program Evaluation
School psychologists have knowledge of research design, statistics, measurement, varied data collection and analysis techniques, and program evaluation sufficient for understanding research and interpreting data in applied settings.

Domain 10: Legal, Ethical, and Professional Practice
School psychologists have knowledge of the history and foundations of school psychology; multiple service models and methods; ethical, legal, and professional standards; and other factors related to professional identity and effective practice as school psychologists.

Ethical practices, best practices, and legal issues related to families with autism spectrum disorder are discussed throughout, but legal issues are addressed specifically in adolescent modules.

**Spectrum Academy**
You will need to write up your observations in a one-page paper. I am looking for integration of what we have learned in class with what you observed. Spectrum Academy is a charter school that serves students with autism and some typically developing peers (usually siblings). It serves students in grades K-9, with a new grade added every year until they have K-12. Contact Liz Banner, Principal of the Pleasant Grove Campus Liz Banner <lbanner@spectrumcharter.org>

Alpine School District

YOU MUST WRITE UP YOUR OBSERVATIONS -- 1 PG-- TO GET CREDIT. I WILL BE LOOKING FOR YOU TO INTEGRATE WHAT YOU HAVE LEARNED IN CLASS SO FAR IN YOUR OBSERVATIONS.

Scenic View Academy (adults)

Due: Thursday, Jun 14 at 11:59 pm

Scenic View Academy (Adults) Contact Elein Sutherland <eleins@svacademy.org> Classes end second week in June.

THE Activity Kit for Babies and Toddlers at Risk
Does My Child Have Autism?

Due: Friday, Jun 15 at 11:59 pm

Books Written by Temple Grandin

Due: Friday, Jun 15 at 11:59 pm

Neurotribes

Due: Friday, Jun 15 at 11:59 pm

Final Training Log

Due: Monday, Jun 18 at 11:59 pm

Your Final Training Log (see content: Training Log) is a record of how many hours you spent viewing/reading online resources (listed in each Module). Expectations are that you spend 3-6 hours per week outside of class. Each Module suggests a way to prioritize your time. Lectures are typically one hour or more, online training modules are more. You should also log your observations (if 2-3 credit hours), hours spent on your literature review paper (if 3 hours) and reading time.

Additional Diagnostic

Due: Monday, Jun 18 at 11:59 pm

Total Observation Hours

Due: Monday, Jun 18 at 11:59 pm

Report the total number of hours you spent observing. You will receive 20 points for each hour observed. Upload your observations, identifying the location and elapsed time of the observation -- combine all in one report.

Diagnostic Evaluations

Due: Monday, Jun 18 at 11:59 pm

YOU MUST WRITE UP YOUR OBSERVATIONS -- 1 PG-- TO GET CREDIT.
I WILL BE LOOKING FOR YOU TO INTEGRATE WHAT YOU HAVE LEARNED IN CLASS SO FAR IN YOUR OBSERVATIONS.

Please contact me for available times and dates.

Autism's False Prophets by Paul Offit (extra credit)
Read the book by Paul Offit, write a 1-page summary, OR do a 5-minute report on the book to the class.

**University Policies**

**Honor Code**

In keeping with the principles of the BYU Honor Code, students are expected to be honest in all of their academic work. Academic honesty means, most fundamentally, that any work you present as your own must in fact be your own work and not that of another. Violations of this principle may result in a failing grade in the course and additional disciplinary action by the university. Students are also expected to adhere to the Dress and Grooming Standards. Adherence demonstrates respect for yourself and others and ensures an effective learning and working environment. It is the university's expectation, and every instructor's expectation in class, that each student will abide by all Honor Code standards. Please call the Honor Code Office at 422-2847 if you have questions about those standards.

**Sexual Misconduct**

In accordance with Title IX of the Education Amendments of 1972, Brigham Young University prohibits unlawful sex discrimination against any participant in its education programs or activities. The university also prohibits sexual harassment-including sexual violence-committed by or against students, university employees, and visitors to campus. As outlined in university policy, sexual harassment, dating violence, domestic violence, sexual assault, and stalking are considered forms of "Sexual Misconduct" prohibited by the university.

University policy requires all university employees in a teaching, managerial, or supervisory role to report all incidents of Sexual Misconduct that come to their attention in any way, including but not limited to face-to-face conversations, a written class assignment or paper, class discussion, email, text, or social media post. Incidents of Sexual Misconduct
BYU offers confidential resources for those affected by Sexual Misconduct, including the university’s Victim Advocate, as well as a number of non-confidential resources and services that may be helpful. Additional information about Title IX, the university’s Sexual Misconduct Policy, reporting requirements, and resources can be found at http://titleix.byu.edu (http://titleix.byu.edu) or by contacting the university’s Title IX Coordinator.

Student Disability
Brigham Young University is committed to providing a working and learning atmosphere that reasonably accommodates qualified persons with disabilities. If you have any disability which may impair your ability to complete this course successfully, please contact the University Accessibility Center (UAC), 2170 WSC or 422-2767. Reasonable academic accommodations are reviewed for all students who have qualified, documented disabilities. The UAC can also assess students for learning, attention, and emotional concerns. Services are coordinated with the student and instructor by the UAC. If you need assistance or if you feel you have been unlawfully discriminated against on the basis of disability, you may seek resolution through established grievance policy and procedures by contacting the Equal Employment Office at 422-5895, D-285 ASB.

Academic Honesty
The first injunction of the Honor Code is the call to “be honest.” Students come to the university not only to improve their minds, gain knowledge, and develop skills that will assist them in their life’s work, but also to build character. “President David O. McKay taught that character is the highest aim of education” (The Aims of a BYU Education, p.6). It is the purpose of the BYU Academic Honesty Policy to assist in fulfilling that aim. BYU students should seek to be totally honest in their dealings with others. They should complete their own work and be evaluated based upon that work. They should avoid academic dishonesty and misconduct in all its forms, including but not limited to plagiarism, fabrication or falsification, cheating, and other academic misconduct.

Inappropriate Use Of Course Materials
All course materials (e.g., outlines, handouts, syllabi, exams, quizzes, PowerPoint presentations, lectures, audio and video recordings, etc.) are proprietary. Students are prohibited from posting or selling any such course materials without the express written permission of the professor teaching this course. To do so is a violation of the Brigham Young University Honor Code.

Mental Health Concerns
Mental health concerns and stressful life events can affect students’ academic performance and quality of life. BYU Counseling and Psychological Services (CAPS, 1500 WSC, 801-422-3035, caps.byu.edu) provides individual, couples, and group counseling, as well as stress management services. These services are confidential and are provided by the university at no cost for full-time students. For general information please visit https://caps.byu.edu (https://caps.byu.edu); for more immediate concerns please visit http://help.byu.edu (http://help.byu.edu).

Plagiarism
Intentional plagiarism is a form of intellectual theft that violates widely recognized principles of academic integrity as well as the Honor Code. Such plagiarism may subject the student to appropriate disciplinary action administered through the university Honor Code Office, in addition to academic sanctions that may be applied by an instructor. Inadvertent plagiarism, which may not be a violation of the Honor Code, is nevertheless a form of intellectual carelessness that is unacceptable in the academic community. Plagiarism of any kind is completely contrary to the established practices of higher education where all members of the university are expected to acknowledge the original intellectual work of others that is included in their own work. In some cases, plagiarism may also involve violations of copyright law. Intentional Plagiarism-Intentional plagiarism is the deliberate act of representing the words, ideas, or data of another as one’s own without providing proper attribution to the author through quotation, reference, or footnote. Inadvertent Plagiarism-Inadvertent plagiarism involves the inappropriate, but non-deliberate, use of another’s words, ideas, or data without proper attribution. Inadvertent plagiarism usually results from an ignorant failure to follow established rules for documenting sources or from simply not being sufficiently careful in research and writing. Although not a violation of the Honor Code, inadvertent plagiarism is a form of academic misconduct for which an instructor can impose appropriate academic sanctions. Students who are in doubt as to whether they are providing proper attribution have the responsibility to consult with their instructor and obtain guidance. Examples of plagiarism include: Direct Plagiarism-The verbatim copying of an original source without acknowledging the source. Paraphrased Plagiarism-The paraphrasing, without acknowledgement, of ideas from
another that the reader might mistake for the author's own. Plagiarism Mosaic-The borrowing of words, ideas, or data from an original source and blending this original material with one’s own without acknowledging the source. Insufficient Acknowledgement-The partial or incomplete attribution of words, ideas, or data from an original source. Plagiarism may occur with respect to unpublished as well as published material. Copying another student's work and submitting it as one’s own individual work without proper attribution is a serious form of plagiarism.

**Respectful Environment**

"Sadly, from time to time, we do hear reports of those who are at best insensitive and at worst insulting in their comments to and about others... We hear derogatory and sometimes even defamatory comments about those with different political, athletic, or ethnic views or experiences. Such behavior is completely out of place at BYU, and I enlist the aid of all to monitor carefully and, if necessary, correct any such that might occur here, however inadvertent or unintentional. "I worry particularly about demeaning comments made about the career or major choices of women or men either directly or about members of the BYU community generally. We must remember that personal agency is a fundamental principle and that none of us has the right or option to criticize the lawful choices of another."

President Cecil O. Samuelson, Annual University Conference, August 24, 2010 "Occasionally, we ... hear reports that our female faculty feel disrespected, especially by students, for choosing to work at BYU, even though each one has been approved by the BYU Board of Trustees. Brothers and sisters, these things ought not to be. Not here. Not at a university that shares a constitution with the School of the Prophets." Vice President John S. Tanner, Annual University Conference, August 24, 2010
