Learning Outcomes

**Characteristics of students with mild/moderate disabilities**

Describe educational characteristics of students with mild/moderate disabilities.

**Components of the Individualized Education Program (IEP)**

List and describe the components of a standards-based IEP.

**Utah Core Curriculum for mathematics**

Demonstrate understanding of the Utah core curriculum for mathematics.

**Standards-based planning**

Write standards-based PLAAFP statements, IEP and unit goals, and lesson objectives for case study students.

**Lesson planning for the effective teaching cycle**

Write scripted direct instruction lesson plans with recording methods for student achievement data.

**Enacting the effective teaching cycle**

Use direct instruction lesson plans to enact the effective teaching cycle with high student response rates, praise, and corrective feedback.

**Informal curriculum based assessments**

Demonstrate how to design and collect data with curriculum based assessments, and how to use data to make instructional decisions for case study students.

**Response to Intervention**

Describe the RtI concept and process, and use progress-monitoring data to make RtI decisions for case study students.
Direct Instruction Scripted Directives

Demonstrate how to deliver instruction using scripted directives, unison responding, and signals.

Grading Policy

All assignments are expected to be submitted at the **beginning** of class on the due date. There will be a deduction in points of 10% per day for assignments turned in after the set due date. According to University Policy, assignments will not be accepted after the last day of semester classes.

Participation Policy

Each student is expected to maintain a positive and professional attitude in this course. Expectations include regular attendance, arriving on-time, being prepared and completing work assignments by due dates, collaborating and participating willingly, and staying until the appointed departure time. Please work with the professor if you will need to miss time in class. If there is a concern in any of these areas or other areas of professionalism, a PIBS will be completed by the professor and submitted to the program coordinator. The PIBS is used to make decisions about eligibility to continue in the Special Education Program.
**Attendance Policy**

Students are expected to attend every class period. Each unexcused absence will result in 3% deduction from final grade. Absences must be cleared with the instructor via email. Patterns of arriving late or leaving early indicate a lack of professionalism and will also affect your final grade.

University Policies

Honor Code

In keeping with the principles of the BYU Honor Code, students are expected to be honest in all of their academic work. Academic honesty means, most fundamentally, that any work you present as your own must in fact be your own work and not that of another. Violations of this principle may result in a failing grade in the course and additional disciplinary action by the university. Students are also expected to adhere to the Dress and Grooming Standards. Adherence demonstrates respect for yourself and others and ensures an effective learning and working environment. It is the university’s expectation, and every instructor’s expectation in class, that each student will abide by all Honor Code standards. Please call the Honor Code Office at 422-2847 if you have questions about those standards.

Sexual Misconduct
As required by Title IX of the Education Amendments of 1972, the university prohibits sex discrimination against any participant in its education programs or activities. Title IX also prohibits sexual harassment—including sexual violence—committed by or against students, university employees, and visitors to campus. As outlined in university policy, sexual harassment, dating violence, domestic violence, sexual assault, and stalking are considered forms of "Sexual Misconduct" prohibited by the university.

University policy requires any university employee in a teaching, managerial, or supervisory role to report incidents of sexual misconduct that come to their attention through various forms including face-to-face conversation, a written class assignment or paper, class discussion, email, text, or social media post. If you encounter sexual misconduct, please contact the Title IX Coordinator at t9coordinator@byu.edu or 801-422-2130 or Ethics Point at https://titleix.byu.edu/report-concern or 1-888-238-1062 (24-hours). Additional information about Title IX and resources available to you can be found at http://titleix.byu.edu.

**Student Disability**

Brigham Young University is committed to providing a working and learning atmosphere that reasonably accommodates qualified persons with disabilities. If you have any disability which may impair your ability to complete this course successfully, please contact the University Accessibility Center (UAC), 2170 WSC or 422-2767. Reasonable academic accommodations are reviewed for all students who have qualified, documented disabilities. The UAC can also assess students for learning, attention, and emotional concerns. Services are coordinated with the student and instructor by the UAC. If you need assistance or if you feel you have been unlawfully discriminated against on the basis of disability, you may seek resolution through established grievance policy and procedures by contacting the Equal Employment Office at 422-5895, D-285 ASB.

**Academic Honesty**
The first injunction of the Honor Code is the call to "be honest." Students come to the university not only to improve their minds, gain knowledge, and develop skills that will assist them in their life's work, but also to build character. "President David O. McKay taught that character is the highest aim of education" (The Aims of a BYU Education, p.6). It is the purpose of the BYU Academic Honesty Policy to assist in fulfilling that aim. BYU students should seek to be totally honest in their dealings with others. They should complete their own work and be evaluated based upon that work. They should avoid academic dishonesty and misconduct in all its forms, including but not limited to plagiarism, fabrication or falsification, cheating, and other academic misconduct.

Respectful Environment

"Sadly, from time to time, we do hear reports of those who are at best insensitive and at worst insulting in their comments to and about others... We hear derogatory and sometimes even defamatory comments about those with different political, athletic, or ethnic views or experiences. Such behavior is completely out of place at BYU, and I enlist the aid of all to monitor carefully and, if necessary, correct any such that might occur here, however inadvertent or unintentional. "I worry particularly about demeaning comments made about the career or major choices of women or men either directly or about members of the BYU community generally. We must remember that personal agency is a fundamental principle and that none of us has the right or option to criticize the lawful choices of another." President Cecil O. Samuelson, Annual University Conference, August 24, 2010 "Occasionally, we ... hear reports that our female faculty feel disrespected, especially by students, for choosing to work at BYU, even though each one has been approved by the BYU Board of Trustees. Brothers and sisters, these things ought not to be. Not here. Not at a university that shares a constitution with the School of the Prophets." Vice President John S. Tanner, Annual University Conference, August 24, 2010
