Conduct and Score M-COMP CBM's

May
29

Due: Saturday, May 29 at 11:59 pm

Conduct and score a series of three to five math computation (M-COMP) CBM's.

I am providing you some materials for you to use for the remaining CBM assignments.

Please use these materials for the M-Comp, M-Cap, and Graphing assignments. You aren't required to use these materials for these assignments but it is recommended. If you use other materials, just make sure they meet all of the requirements that are outlined in the ABC's of CBM book. I am happy to review any materials you would like to use. The folder can be accessed from the following URL: <https://byu.box.com/s/s8p9e6vharrcu4ckpy6zi6zndodttxex> (<https://byu.box.com/s/s8p9e6vharrcu4ckpy6zi6zndodttxex>). These files are copyrighted and should only be used for these assignments. Please do not distribute them or post them online etc.

To access the box folder with the materials you will need to sign in using your BYU account. This will possibly require you to use either your net ID or your email address that ends in byu.edu. Please send me your BYU email through the google form at <https://forms.gle/XbWazqgLj5rxmgYU8> ([http:// https://forms.gle/XbWazqgLj5rxmgYU8](https://forms.gle/XbWazqgLj5rxmgYU8)).

- If possible, complete these assignments with a child at the appropriate level, this is not required but recommended. I understand that this may be difficult for some of you and you will not be graded differently if you are not able to find a child as your participant. If you do not have access to a child then please have the your participant complete the probe as though they were at that level and encourage them to make a mistake or two.
- You cannot give the probes to yourself (e.g., You should not be both the person administering the probe and the person being being probed).
- For the purpose of this assignment the probes should be administered in paper/pencil format. Many companies have digital options for progress monitoring with nice features like automatic scoring and graphing, however, you may be in a district that doesn't purchase access to these digital resources so I want you to be familiar with administering and scoring them in Paper/Pencil format.
- You are welcome to use any of the levels for both the M-Comp and the M-Cap assignments, however, do all of your probes for each assignment at same level (e.g., if you chose level 4 for the M-Comp assignment, then all of the probes that you do should be at that level. You are welcome to do a different level for the M-Cap assignment (e.g., 1-3 or 5-6) however, do the same level for all of the probes of the level you choose.
- Administer probes for 2 minutes, follow directions in the CBM book if individual finishes before 2 minutes.
- Use a different probe for each probe
- Do 3 to 5 probes for each assignment (e.g., 3-5 probes for the M-Comp assignment and 3-5 probes for the M-Cap assignment).
- There are only concepts and applications files for levels 2-6.
- Use the directions from the ABCs of CBM book.
- There are scoring key's for each of the probes that can be used as guides but use the CD-S scoring procedures from the ABCs of CBM book.
- Upload your probes to Learning Suite using PDF or JPG file types (Please do not upload HEIC files).

Graph the CBM Results

Jun
05

Due: Saturday, Jun 05 at 11:59 pm

Graph the results from each of the M-COMP, & M-CAP CBM's you administered using a line graph. Use one of the attached line graphs, the one that is most appropriate for the score your student is at or the one on page 232 in the ABCs of CBM book. To determine the appropriate level make sure the graph is small enough to show changes in the probes and also to where the vertical axis has room for growth. On the graph, list the type of CBM at the top, fill in a pseudonym for the name of the student and list your name as the teacher, list the level of CMB that you administered and fill out the skill being measured. Put a dot for the score the students received on each CBM probe and connect each of the dots with a line.

The graph can be either filled out electronically or printed and filled out using a pencil. A goal line and trend line are not required for this assignment but are recommended when graphing CBM data for students.

University Policies

Honor Code

must in fact be your own work and not that of another. Violations of this principle may result in a failing grade in the course and additional disciplinary action by the university. Students are also expected to adhere to the Dress and Grooming Standards. Adherence demonstrates respect for yourself and others and ensures an effective learning and working environment. It is the university's expectation, and every instructor's expectation in class, that each student will abide by all Honor Code standards. Please call the Honor Code Office at 422-2847 if you have questions about those standards.

Preventing Sexual Misconduct

Brigham Young University prohibits all forms of sexual harassment—including sexual assault, dating violence, domestic violence, and stalking on the basis of sex—by its personnel and students and in all its education programs or activities. University policy requires all faculty members to promptly report incidents of sexual harassment that come to their attention in any way and encourages reports by students who experience or become aware of sexual harassment. Incidents should be reported to the Title IX Coordinator at t9coordinator@byu.edu or (801) 422-8692 or 1085 WSC. Reports may also be submitted online at <https://titleix.byu.edu/report> (<https://titleix.byu.edu/report>) or 1-888-238-1062 (24-hours a day). BYU offers a number of resources and services for those affected by sexual harassment, including the university's confidential Sexual Assault Survivor Advocate. Additional information about sexual harassment, the university's Sexual Harassment Policy, reporting requirements, and resources can be found in the University Catalog, by visiting <http://titleix.byu.edu> (<http://titleix.byu.edu>), or by contacting the university's Title IX Coordinator.

Student Disability

Brigham Young University is committed to providing a working and learning atmosphere that reasonably accommodates qualified persons with disabilities. A disability is a physical or mental impairment that substantially limits one or more major life activities. Whether an impairment is substantially limiting depends on its nature and severity, its duration or expected duration, and its permanent or expected permanent or long-term impact. Examples include vision or hearing impairments, physical disabilities, chronic illnesses, emotional disorders (e.g., depression, anxiety), learning disorders, and attention disorders (e.g., ADHD). If you have a disability which impairs your ability to complete this course successfully, please contact the University Accessibility Center (UAC), 2170 WSC or 801-422-2767 to request a reasonable accommodation. The UAC can also assess students for learning, attention, and emotional concerns. If you feel you have been unlawfully discriminated against on the basis of disability, please contact the Equal Opportunity Office at 801-422-5895, eo_manager@byu.edu, or visit <https://hrs.byu.edu/equal-opportunity> (<https://hrs.byu.edu/equal-opportunity>) for help.

Academic Honesty

The first injunction of the Honor Code is the call to "be honest." Students come to the university not only to improve their minds, gain knowledge, and develop skills that will assist them in their life's work, but also to build character. "President David O. McKay taught that character is the highest aim of education" (The Aims of a BYU Education, p.6). It is the purpose of the BYU Academic Honesty Policy to assist in fulfilling that aim. BYU students should seek to be totally honest in their dealings with others. They should complete their own work and be evaluated based upon that work. They should avoid academic dishonesty and misconduct in all its forms, including but not limited to plagiarism, fabrication or falsification, cheating, and other academic misconduct.

Devotional Attendance

Brigham Young University's devotional and forum assemblies are an important part of your BYU experience. President Cecil O. Samuelson said, "We have special and enlightening series of devotional and forum assemblies...that will complement, supplement, and enrich what will also be a very productive period in your classrooms, laboratories, and libraries. We look forward to being with you each Tuesday...and hope that you will regularly attend and bring your friends and associates with you...A large part of what constitutes the unique 'BYU experience' is found in these gatherings where the Spirit has been invited and where we have the opportunity to discuss and consider things of ultimate worth and importance that are not afforded to the academic community on almost any other campus" (from the address "The Legacy of Learning" 30 August 2005). Your attendance at each forum and devotional is

Mental Health Concerns

Mental health concerns and stressful life events can affect students' academic performance and quality of life. BYU Counseling and Psychological Services (CAPS, 1500 WSC, 801-422-3035, caps.byu.edu) provides individual, couples, and group counseling, as well as stress management services. These services are confidential and are provided by the university at no cost for full-time students. For general information please visit <https://caps.byu.edu> (<https://caps.byu.edu>); for more immediate concerns please visit <http://help.byu.edu> (<http://help.byu.edu>).

Plagiarism

Intentional plagiarism is a form of intellectual theft that violates widely recognized principles of academic integrity as well as the Honor Code. Such plagiarism may subject the student to appropriate disciplinary action administered through the university Honor Code Office, in addition to academic sanctions that may be applied by an instructor. Inadvertent plagiarism, which may not be a violation of the Honor Code, is nevertheless a form of intellectual carelessness that is unacceptable in the academic community. Plagiarism of any kind is completely contrary to the established practices of higher education where all members of the university are expected to acknowledge the original intellectual work of others that is included in their own work. In some cases, plagiarism may also involve violations of copyright law.

Intentional Plagiarism-Intentional plagiarism is the deliberate act of representing the words, ideas, or data of another as one's own without providing proper attribution to the author through quotation, reference, or footnote.

Inadvertent Plagiarism-Inadvertent plagiarism involves the inappropriate, but non-deliberate, use of another's words, ideas, or data without proper attribution. Inadvertent plagiarism usually results from an ignorant failure to follow established rules for documenting sources or from simply not being sufficiently careful in research and writing. Although not a violation of the Honor Code, inadvertent plagiarism is a form of academic misconduct for which an instructor can impose appropriate academic sanctions. Students who are in doubt as to whether they are providing proper attribution have the responsibility to consult with their instructor and obtain guidance. Examples of plagiarism include:

Direct Plagiarism-The verbatim copying of an original source without acknowledging the source.

Paraphrased Plagiarism-The paraphrasing, without acknowledgement, of ideas from another that the reader might mistake for the author's own.

Plagiarism Mosaic-The borrowing of words, ideas, or data from an original source and blending this original material with one's own without acknowledging the source.

Insufficient Acknowledgement-The partial or incomplete attribution of words, ideas, or data from an original source. Plagiarism may occur with respect to unpublished as well as published material. Copying another student's work and submitting it as one's own individual work without proper attribution is a serious form of plagiarism.

Respectful Environment

"Sadly, from time to time, we do hear reports of those who are at best insensitive and at worst insulting in their comments to and about others... We hear derogatory and sometimes even defamatory comments about those with different political, athletic, or ethnic views or experiences. Such behavior is completely out of place at BYU, and I enlist the aid of all to monitor carefully and, if necessary, correct any such that might occur here, however inadvertent or unintentional. "I worry particularly about demeaning comments made about the career or major choices of women or men either directly or about members of the BYU community generally. We must remember that personal agency is a fundamental principle and that none of us has the right or option to criticize the lawful choices of another." President Cecil O. Samuelson, Annual University Conference, August 24, 2010 "Occasionally, we ... hear reports that our female faculty feel disrespected, especially by students, for choosing to work at BYU, even though each one has been approved by the BYU Board of Trustees. Brothers and sisters, these things ought not to be. Not here. Not at a university that shares a constitution with the School of the Prophets." Vice President John S. Tanner, Annual University Conference, August 24, 2010
