PhD - Educational Inquiry, Measurement & Evaluation

PROGRAM SUMMARY

The Educational Inquiry, Measurement, and Evaluation (EIME) PhD at Brigham Young University prepares scholars who combine rigorous inquiry with the doctrines of the gospel of Jesus Christ to improve educational opportunities for all of God's children. Graduates develop the knowledge, expertise, and character needed to serve as educational researchers, policy analysts, evaluators, and professors. Students are prepared to work in diverse settings—including universities, government agencies, school systems, research organizations, and non-profit institutions.

ELIGIBILITY

1. Bachelor's degree
2. GRE test scores (LSAT and GMAT also accepted)
3. Demonstration of competency in basic statistics
4. Education related experience and background
5. Research experience preferred

WHY BYU?

- Spiritually enriching environment
- One-on-one advising throughout the program
- Affordable tuition
- Partial scholarships for all students
- Work with experienced faculty committed to your success
